

## Kodkod

### Cabernet Sauvignon 2022

#### Grape Varieties

**85% Cabernet Sauvignon:** The “Las Casas” vineyard was established at least the year 1900 according to official records and has never been grafted. 10% Carménère and 5% Syrah create complexity. Handpicked on March 16th.

#### Apellation

The vineyards are planted on gentle slopes of the hills of the Coastal Range. About one kilometer away from the Maule River.

#### Winemaking and History

Santa Rosa de Lavaderos is in a valley protected by the first hills of the Coastal Mountain Range, the rivers Maule and Loncomilla. In these hills, the family that owns the farm has a natural reservation of native forest, where among other vulnerable species dwells the Kodkod (the smallest wild cat of the world).

#### Technical details

Álcohol: 14 %

pH: 3.64

TA: 5.1

Residual sugar: 2.81 g/L

Bottled on August 25<sup>th</sup>, 2023.

#### Tasting notes and press

Made in a “classic” style, part of the wine was aged during eight months in French oak barrels. Is recommended to use a decanter during the year 2023.

The Cabernet Sauvignon vineyard “Las Casas” had a report on the oldest vines in the world at [jancisrobinson.com](http://jancisrobinson.com) in August 2022 and the 2019 Kodkod vintage achieved 17.5/20 “A very pure, ripe, sweet, minted-blackcurrant nose. Striking purity of fruit on the palate. And striking elegance built into the long-limbed, cool, herb-scented tannins”.

The 2019, 2021 and 2022 vintages (for 2020 we did not make this wine) have achieved scores of 94/100 at “Descorchados”, probably the most prestigious Chilean critic.
